After midnight, call the **112** in order to make an appointment at the "Maison Médicale de garde" of your choice.

DO YOU KNOW YOUR "MAISON MÉDICALE DE GARDE"?

In these settings, family doctors offer medical care to each patient requiring a medical care of proximity during the nights, as well as during the weekends and holidays.

The "Maison Médicale de garde" functions as a general practice. Its mission is to establish a replacement service for family doctors to ensure the continuity of care.

Instead of waiting in a clogged emergency ward for a health problem that is not a real medical emergency (fever, angina, cold, gastrointestinal disorders, pain, lumbago, small cut etc.), the "Maisons Médicales de garde" represent the ideal proximity alternative for the patient.

Attention: The "Maison Médicale de garde" offers a medical permanence and is not an emergency service. In case of a medical emergency, immediately call 112 (toll-free number).

A trustworthy medical practitioner will welcome you and take care of you in a personalized, human and confidential manner. He will give you care and advice, in the same way that your family doctor usually does.

On the other hand, if you do not have a family doctor, the doctor on site can guide you in choosing one.
